

Hazmat Software LLC is the largest provider of hazardous materials shipping solutions in the United States. Hazmat Software's customers have shipped over 100 million hazmat packages worldwide. Hazmat Software's customers include some of the largest Fortune 500 companies. Hazmat Software products include ShipEasy Platinum Web, the XCE Hazmat Compliance Engine, HTS Enterprise and ShipEasy Platinum for UPS WorldShip™.

Utilizing our extensive software development experience coupled with years of DOT and IATA Compliance knowledge we have developed ShipEasy Platinum Web. ShipEasy Platinum Web utilizes XCE. XCE is the most powerful and flexible hazmat shipping compliance engine in the industry. It is loaded with regularity logic to ensure that your shipments are always in compliance. It complies with DOT and IATA regulations, carrier variations and includes an extensive feature set.

With ShipEasy Platinum Web you can offer your customers hazmat compliance that is seamlessly integrate within your shipping or warehouse management solutions. You can also integrate ShipEasy Platinum Web via our XML based web services to virtually any logistics solutions.
